

"Letter to Santa Claus"

Dear Santa,

How are you? Covid-19 is still raging worldwide, how is the situation in the North Pole? My name is Carson Lam, I live in Hong Kong and I am 10 years old now. I am doing well this year. At school, I worked hard and got a better result than before. At home, I have learnt how to wash the dishes and hang the clothes. However, I must tell the truth. My mother sometimes gets angry because I play too much computer games. (I think I need to improve a bit.)

In Hong Kong, there are many people unemployed because Covid-19 is pandemic for nearly a year. All the business activities have been suspended, so many companies shut down. People haven't got money to rent the flat. They become homeless. Lately I have donated some cold weather outfit to homeless and the elderly. In this hard time, people feel sad and scared. Therefore, I have a wish, I hope you can arrange 200 sets of Christmas dinner for them. It will let them have joy and love. I promise I can give a helping hand. I will send them the dinner out with you. Then I have a chance to ride on your sleigh.

Thank you for reading my letter. I have prepared some masks for you. Please remember to wear mask before delivering presents to the children. Wish you have a happy and fruitful year in 2021.

Signed your biggest fan, Carson Lam (1A).

❖MERRY❖

christmas

and

HAPPY NEW YEAR
