

"Letter to Santa Claus"

Dear Santa,

Late Merry Christmas, Santa! Sorry for not writing this letter before Christmas. But I'm not writing for any presents. Just want to ask you that are you safe in your village with the elves and Mrs Claus?

I know that we're all having bad days in 2020. I don't know if you're having the same problem or not. I hope the answer is no, of course. I hate 2020 like others, too. But it also gave me a lot! I've met more amazing people this year, and some great songs. Although we couldn't go travel or even go out, but I got something more at home! I have more times to spend it with my family or learn more interesting things I like from the internet. My drawing and writing skills has improved a lot!

Also in 2020, we couldn't do many things because of the Corona Virus. Something we've never cared about became more precious than before. I think this is an important point too!

Finally, thank you for giving us happiness and hope at Christmas! Did you find any good things in this bad 2020? Anyway, 2020 has past and it's 2021 now. I believe this year will be more better!

Wishing you a Merry Christmas and Happy New Year!
